

Engineering & Equipment Co.

QUALITY, SERVICE, AND EXPERTISE
SINCE 1958

We engineer your success!

OIL AND GAS PRODUCTION REFINING AND TRANSMISSION

SIEMENS

Includes Milltronics, Controlotron, Moore, & Danfoss

- Magnetic, coriolis, clamp-on ultrasonic, & vortex flow meters
- Non-contact & guided wave radar level transmitters
- Gauge, absolute, & differential pressure transmitters
- Control valve & damper positioners
- Temperature sensors & transmitters
- Motion sensing & speed switch process protection
- Continuous gas analyzers & tunable diode Lasers (TDL) for process gas & CEMS applications
- Gas chromatographs
- Industrial products including: programmable controllers, HMI, VFD's, MCC's, Power supplies & panel accessories

METTLER TOLEDO

INGOLD and THORNTON

- Analytical instrumentation for industrial process applications
- Solutions for pH, ORP, conductivity/resistivity, dissolved oxygen, ozone, carbon dioxide, turbidity, optical density & flow
- Tunable diode laser (TDL) gas analyzers & amperometric gas-phase oxygen sensors

- Ruffneck explosion proof electric & steam heaters for hazardous areas
- Thermon electric heat tracing cables, systems, & accessories for hazardous areas
- Pre-insulated steam trace & custom analyzer
- Tubing bundles

powerblanket

- Custom heating blankets for class 1 division 2 areas

High performance analyzers for oxygen and hydrogen sulfide using innovative patented designs

Liquid and gas analyzers for H₂S, CO₂, total sulfur, hydrocarbons, & oil

Side entry control valves & chokes

High pressure, high performance new generation knife gate valve

Big Joe & Little Joe pressure reducing regulators, back pressure / pressure relieving regulators, electronic pressure control regulators, explosion-proof I/P transducers

Solar power systems, wind turbines, & related accessories

Hi-flow valves, transmitters, gauges, & switches

North American-manufactured linear & rotary control valves, E body & D body repair parts, valve reconditioning

Float level sensors measuring interface and total level for the oil and gas industry

Thermal mass flowmeters, flow & level switches, vortab flow conditioners

FITOK

DOT gas sample cylinders & accessories, high pressure valves, fittings & regulators

Stainless steel, seal welded & nace trim ball valves

Precision calibration gas mixtures, DOT gas sample cylinders, regulators, & accessories

Turbine, oval gear, impeller flow meters, magnetic flow meters, BTU calculators & displays

Guided wave radar for interface and high level measurements, fiber optic sensing for strain and pipeline leak detection, & wireless communication, magnetic liquid level gauges

Explosion proof & general purpose electric fail-safe valve actuation

Heated enclosures, shelters, & safety showers

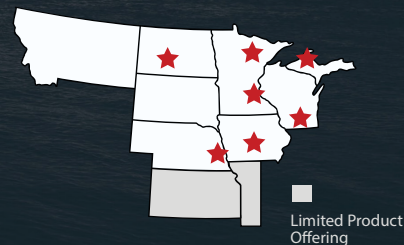

Flow & energy computers, process indicators & sensors, batch controllers, counters, timers, totalizers, HMI's, & flat panel monitors

Engineering & Equipment Co.

QUALITY, SERVICE, AND EXPERTISE
SINCE 1958

We engineer your success!

OIL AND GAS PRODUCTION REFINING AND TRANSMISSION CONTINUED

V-Cone, Electromagnetic, & Propeller
Style Flowmeters

Conventional & pilot operated safety
relief valves for gas service, featuring
"auto seat technology"

Intrinsic safety isolators & barriers,
signal conditioners & surge suppressors,
ruggedized HMI's for class 1
div 1 environments

Process pressure gauges, diaphragm
seals, thermometers, & thermowells,
explosion proof fixed range & hammer
union pressure transmitters, pressure
& temperature transmitters/switches,
instrument manifold valves, block &
bleed isolation valves

Magnetic liquid level gauges,
transmitters and switches for oil & gas
processing

Flow, level, pressure & temperature
displays

Prism Integrated Solutions Inc.
Tank vents, detonation & flame
arrestors

RTD's, thermocouples, wells, &
temperature transmitters

Hand pumps, hoses, adapters, valves,
fluid traps, calibration manifolds,
volume controllers, nitrogen sources,
pressure regulators, pressure gauges, &
benchtop manifolds

RJ MACHINE Co.

Thermowells, sample probes, orifice
plates, orifice fittings & accessories

Fixed gas & flame detectors; open path
gas & flame detectors; controllers,
alarm stations & analyzers

Liquid leak detection systems, wired
& wireless web-based monitoring
solutions, & raised floor airflow
management

Pressure & temperature switches,
transmitters and controls for safety, &
shutdown systems, vanguard battery
powered wireless HART gas detection

Vane style, vortex shedding, rotameters,
& laminar flow element flow meters

Spot and handheld pyrometers,
acoustic, thermal and infrared imaging
solutions, and thermal profiling/tracking
systems
